### Summary

---

Java Backend Developer with 3+ years of experience in building scalable microservices using Java, Spring Boot, and RESTful APIs. Proficient in PostgreSQL, Docker, and Kubernetes, with a strong focus on performance optimization, secure authentication, and agile delivery.

### Skills

---

**Backend** — Java, Spring Boot, Microservices, REST API

**Frontend** — HTML, CSS, JavaScript, TypeScript, ReactJS, Redux

**Databases:** — MySQL, PostgreSQL, MongoDB

**DevOps & Tools** — Docker, Kubernetes, Git, GitHub, Postman, IntelliJ IDEA, VSCode, MySQL Workbench

**Other** — Component-driven architecture, Performance tuning, Code review, Accessibility, Responsive design

### Experience

---

#### Persistent Systems Limited

##### Senior Software Engineer

06/2022 – Present

Noida, India

- Designed and developed scalable RESTful APIs using Spring Boot for high-performance backend systems.
- Led the development of data integration services to migrate and validate records across SQL Server, BigQuery, and PostgreSQL.
- Participated in code reviews, design discussions, and mentoring junior developers for clean code and architectural best practices.
- Actively contributed to performance tuning, load testing, and resolving production incidents to maintain SLAs.

##### Software Engineer Intern

12/2021 – 06/2022

Indore, India

- Trained and skilled as a Java Full Stack Developer, with a strong focus on backend technologies.
- Gained hands-on expertise in Java, Spring Boot, Microservices, and commonly used Design Patterns to build robust and scalable backend services.
- Applied foundational knowledge of frontend technologies (HTML, CSS, JavaScript, TypeScript, ReactJS, Redux) to support full-stack development when required.
- Proficient with industry-standard tools like IntelliJ IDEA, VSCode, Postman, Git, MySQL Workbench, Jira, and Figma for efficient development and collaboration.

### Education

---

#### Bachelor's Degree in Information Technology,

06/2022

INSTITUTE OF ENGINEERING AND TECHNOLOGY(IET-DAVV)

Indore, India

- GPA 8.57

#### Polytechnic Diploma in Information Technology,

06/2019

DR. BHIMRAO AMBEDKAR POLYTECHNIC COLLEGE

Gwalior, India

- GPA 8.03

## Projects

---

### **Microservice-Based University Admission Platform, EAB-Offshore**

02/2024 – Present

- Designed and maintained RESTful backend APIs with Java and Spring Boot.
- Developed custom validation logic and libraries (like PAPAM) for secure data validation processes.
- Architected and deployed microservices for handling complex business workflows, data submissions, authentication, and backend integrations.
- Utilized Docker and Kubernetes for scalable, containerized service deployment.

### **Data Pipeline & ETL Microservices, Wayfair-Offshore**

07/2022 – 01/2024

- Engineered parallelized microservices for large-scale data migration from SQL Server to BigQuery & PostgreSQL.
- Achieved dramatic performance improvements by reducing ETL processing time from 32 minutes to 5–7 minutes per 100,000 records through optimized workflows and parallel processing.
- Developed microservices to manage user modules, cart functionalities, and product details, ensuring seamless integration and effective data management across key business domains.
- Ensured robust error handling, security (OAuth2/JWT), and extensibility in microservices architecture.
- Utilized Docker and Kubernetes for containerized deployment and orchestration across distributed environments.

## Certificates

---

- AWS Certified Cloud Practitioner
- Microsoft Certified: Azure Fundamentals (AZ-900)

## Awards

---

### **Top Talent – FY25**

Awarded for outstanding performance and contributions in fiscal year 2025.

### **Top Talent – FY23**

Recognized for exceptional quality, consistency and impact in FY24.

### **High Five Individual**

Recognized for consistent top performance across three quarters.
